AquaSEAL: Outstanding Resistance to Water

Groundbreaking water resistance

AquaSEAL is CDM's newest high performance decorative surface overlay. Where the ability to resist moisture is critical, AquaSEAL is the solution.

TECHNICAL PERFORMANCES

AquaSEAL is available with an **EB TOPCOAT** for superior performance providing **INCREASED BENEFITS** to the end user:

1. Water holdout of 48 hrs minimum
2. Scratch and wear resistance far superior to both paper and vinyl, with a stipple finish matching TFM
3. Higher heat resistance than vinyl or paper
4. No shrink or creep like vinyl
5. No yellowing or discolouring like vinyl
6. Higher print fidelity than vinyl
7. No cracking with heat cycle test

All CDM finish decorative overlavs are formaldehvd e free.

In addition CDM's new AquaSEAL water barrier products offer a

100% barrier against formaldehyde emission from boards.
