## FS VENEER GRADING

# **HUSKY PLYWOOD STE-THERESE IS A PROUD MEMBER OF**

- Canadian Hardwood Plywood & Veneer Association (Canada – CHPVA)
- Hardwood Plywood & Veneer Association (US – HPVA)
- We follow the ANSI/HPVA grading rule adopted by both associations

# CHPVA / HPVA

- Strong associations representing the veneer and plywood manufacturers
- Grading rule (ANSI/HPVA) a guide line to create a common language between buyer and seller
- But the descriptions are vague and indefinite
- Grades may vary widely in characteristics and price, from vendor to vendor
- Grading veneer is based on human perception

So we decided to add a bit of

CLARITY

# HUSKY CLARITY GRADES

- Our GOAL is to clarify the grades, in order to give the buyer 3 choices of FS **FACE** veneer
- Each choice will have a different **LOOK**, for different applications
- **This will allow to use the right veneer at the right place for the right price !**
- The resource is scarce and expensive, we wish to contribute to a wiser use of it

HUSKY CLARITY GRADES

PLATINUM

PERFORMANCE

# HUSKY CLARITY GRADES

AVAILABLE IN THE FOLLOWING SPECIES

FS CHERRY

FS RED OAK

FS WHITE OAK

FS MAPLE

FS WALNUT

# PLATINUM

- For high end jobs, in smaller quantities
- **PURE LOOK** with less characteristics
- Nice wide & clean coupons, many sequences
- Most expensive, but some people likes purity

# EXECUTIVE

- For Nice & Rich pieces of furniture or cabinet
- **TRUE WOOD LOOK**, including scattered characteristics and beautiful wood grain
- Book matched with some sequences
- Very good value for the price

# PERFORMANCE

- For smaller parts & darker finishes
- **PLEASING LOOK**, using different flitches, color matched
- Presenting more characteristics, which is the reason why people choose wood over print
- Wise choice for a good price

# HUSKY CLARITY GRADES

WOOD IS A GIFT FROM NATURE

IF WE BELIEVE IN RESPONSIBLE  
FORESTRY PRACTICES (FSC)

WE SHOULD ALSO MAXIMISE THE USE  
OF VENEER AND PROMOTE THE  
NATURAL BEAUTY OF WOOD
